

SANDY BEACH HOLIDAYS 2018

ALL RESIDENTS - HAPPY HOLIDAYS & a Happy NEW YEAR 2019

GREETINGS FROM THE MAYOR & COUNCIL

Winter 2018

Season's Greetings to All.

As the end of the year is rapidly approaching it is time to update you on the happenings of 2018.

A number of items were dealt with and work was performed: Road work and culvert repair on gravel roads; Grants applied for including further road maintenance projects, drainage and culvert replacement and work on the lagoon gates and road. Public Works and Garbage survey resulting in continued weekly household waste pickup by Public Works. Budget 2019 which Council intends that there will be a zero increase in property taxes. Fire Smart signage quotes which will be installed potentially in late December and with individual property address signs coming in 2019.

Work on repairs to our lagoon are proceeding but will likely not start again until Spring 2019. There is some excitement about the future possibility of a waste water pipeline, with our Summer Village being given priority in terms of development.

The next phase of the WILD water pipe line to our Summer Village is now in the development stages, as engineering design has commenced. Some events are planned by the Sun & Sand Recreation League. Numb Bum will take place again over the February family day weekend. The Rec League is always seeking new members and volunteers to help operate events. Winter events such as snowmobiling and cross-country skiing as well as the development of hockey rinks will likely occur on the lake.

You are urged to take care and be safe at all times when on the lake.

On behalf of Council and Administration -
Gordon Drybrough December 2018

COUNCIL

Gordon Drybrough
