All Sandy Beach Residents

**Re: Wastewater Disposal fees (Pump Outs)**

Dear Fellow Resident

Several market factors, have increased wastewater disposal fees affecting the entire industry in the region, which will remain in the forecast until 2023. One major change is a rate increase in disposal fees imposed by the Town of Onoway for all haulers accessing the Onoway lagoon, which is paid directly by the hauler and is reflected in the cost to you for a pump out.

Exact increases will vary depending on the size of your holding tank but on average will be around 9% for 2020. As an example, the cost increase for an 1,800 gallon tank may be approximately \$10.00.

As promised, Standstone's hauling rates have not changed. The aim is to maintain this pricing until the 1<sup>st</sup> of January 2021.

We appreciate your patience on this matter.

Please direct ALL questions to [svsandyb@xplornet.ca](mailto:svsandyb@xplornet.ca) or 780.967.2873 during business hours.

Sincerely,

Michael Harney - Chair JLC

Gordon Drybrough - Mayor

Denise Lambert - Councillor
