To whom it may concern

### **Residents Lakeshore Drive**

My name is Michael Harney. I am one of the members of council, and have been working with our lagoon manager in regards to the discharge that was completed late last year. Alberta Environment requires several water samples from residential water wells to complete their reports.

Would you be willing to arrange a time (at your convenience) for us to obtain a sample of your water?

We will provide you with the results of the testing.

You can contact me by phone message or text @ 780-299-7456

or email [michael.harney@summervillageofsandybeach.ca](mailto:michael.harney@summervillageofsandybeach.ca)

Thank You

*Michael Harney*
