

Summer Village of Sandy Beach

Message from the Mayor

"Change is inevitable and in the last 12 months in our Summer Village there have been some key changes for the betterment of our Village.

We are awaiting approval from Alberta Environment for a discharge of our lagoon to enable the contracted engineering firm to more closely determine what repairs may be required. In the meantime, the Town of Onoway has agreed to receive our effluent for an additional 2-year period. Public Works are streamlining service delivery and the priorities are household waste (5 bags only), beautification, landscaping and road maintenance. Council through Administration has adopted by-laws relating to an Intermunicipal Subdivision and Appeal Board, 2019 Property Taxes, and a Health and Safety Policy for Employees. XplorNet has now installed a tower on our Public Works and Administration building lot. Approval for a waterline, including a water dispensing station, has received preliminary provincial approval, with design and engineering studies soon to begin. Discussion continues with respect to a waste water transmission line with \$11.5 million dollars (combined Provincial and Federal) already approved.

On behalf of Council I would like to thank all our volunteer groups and committee members such as the FCSS, Fire Smart, Sun & Sand Recreation League and Game Night for contributing the welfare of our Village. A variety of monthly meetings have taken place and all signed minutes are available on the Village website.

I and Council wish you a happy summer wherever you decide to travel and trust you will enjoy our sunsets, community and tranquility while at home." Mayor Gordon Drybrough

Dangerous Trees

We have had an eventful spring high winds have taken down power lines due to falling/leaning trees in the Village. The Village would like to remind residents the importance of removing dead or leaning trees from private property. Each property owner is responsible for the trees on their own property and will be liable for damage caused by falling trees onto neighbouring properties or contact FORTIS Alberta.
